# LINDA3

**TECNODENT**  
ERGONOMIC INNOVATION

## LINDA3

- Electromechanical lifting, lowering and backrest tilting movements synchronized with the leg rest;
- Compensated backrest tilting, up to the horizontal position;
- Anatomic ultra-slim backrest with lateral arm-support wings for perfect comfort for the patient and liberty of movement for the practitioner;
- Anatomic headrest, ELITE FISSO ensures the maximum comfort for the patient and the perfect visibility for the professional;
- Wrapping, seamless upholstery in high quality artificial leather;
- Possible customization with different colors of polyurethane and fabric;
- Complete symmetry for right-handed or left-handed professionals;
- Double joystick control on the base for quick and efficient chair movements with hands free, allowing the assistant perfect control of the chair;
- Security STOPs on the backrest, on the base and on the pantograph arm;
- Return to "zero" position automatic program;
- Rise position automatic program;
- Further three memorizable positions (OPTION);
- Possibility to equip the chair with one/two rotating armrests to improve the accessibility to the arm, allowing a relaxed position during the treatment (OPTION);
- RAL 9002 standard chair painting;
- Special RAL painting (OPTION);
- Memory Foam or Hand Made Soft Foam upholstery (OPTION).

## LINDA3 - 3Motors

- Independent legrest movement with third motor;
- Leg section at 78° for easy patient access;
- Short Legrest;
- 3 programs + zero and rise position;
- For all other characteristics and options please refer to standard Linda3

| TECHNICAL FEATURES                          |            |
|---|------------|
| Minimum height                              | mm 510     |
| Maximum height                              | mm 840     |
| Backrest tilting angle                      | ° -56/+70  |
| Rotation angle                              | ° 0/325    |
| Length (without headrest)                   | mm 1390    |
| Length (with headrest)                      | mm 1590    |
| Gross weight                                | kg 145     |
| Net weight                                  | kg 115     |
| Maximum lifting capability (patient + unit) | kg 110/175 |
| Insulation classification                   |            |
| Applied parts class                         | B          |

### Right/left armrest (OPTION)

Rotating armrests to ease patient's access to the chair.

### Standard base

Compact polyurethane base which guarantees stability and liberty of access and movements to the professional.

### Infrared control (OPTION)

Manual control of movements and memorized positions of the chair, (not possible for Linda3 3 motors)

### -C- Metal base (OPTION)

Specific compact metal base (RAL7016) which enable easy access to the chair. Possibility of different painting (Extra Option)

### Swivel base (OPTION)

Allows 325° rotation around the vertical axis.

### Mobile foot control "Easy Touch" (OPTION)

Easy and intuitive foot control which allows the professional precise hands-free positioning of the chair, for the maximum hygiene.
